PROJECTS

School Management System | *Python, Django, HTML, CSS, Excel, PostgreSQL*

- Developed a School Management System using Python and Django to manage students, teachers, classes, and academic records.
- Used Excel files for data entry, update, and deletion by integrating Python libraries.
- Implemented CRUD operations on Excel-based datasets and stored structured data in PostgreSQL database.
- Designed responsive user interfaces using HTML and CSS.
- Integrated role-based access control for admin and staff management.
- Improved data organization and reduced manual record handling through database-driven digital management.

BlogMate – Blogging Platform | *Python, Django, HTML, CSS, PostgreSQL*

- Developed BlogMate, a full-stack blogging platform using Django framework.
- Implemented user authentication (login and registration) and role-based access control.
- Built features for creating, editing, deleting, and publishing blog posts.
- Designed clean and responsive UI using HTML and CSS.
- Integrated PostgreSQL for secure and scalable data storage.

SKILLS

Technical Skills: Python, NumPy, Pandas, Matplotlib, Advanced Excel, Power BI, HTML, CSS

Database Technologies: PostgreSQL, MySQL

Soft Skills: Fast Learner, Disciplined
